Parent conferences

Parents Booking was the world's first online scheduler for parent-teacher conferences. Over the last fifteen years, it has become incredibly rich in features and seen every imaginable setup, situation and school need.

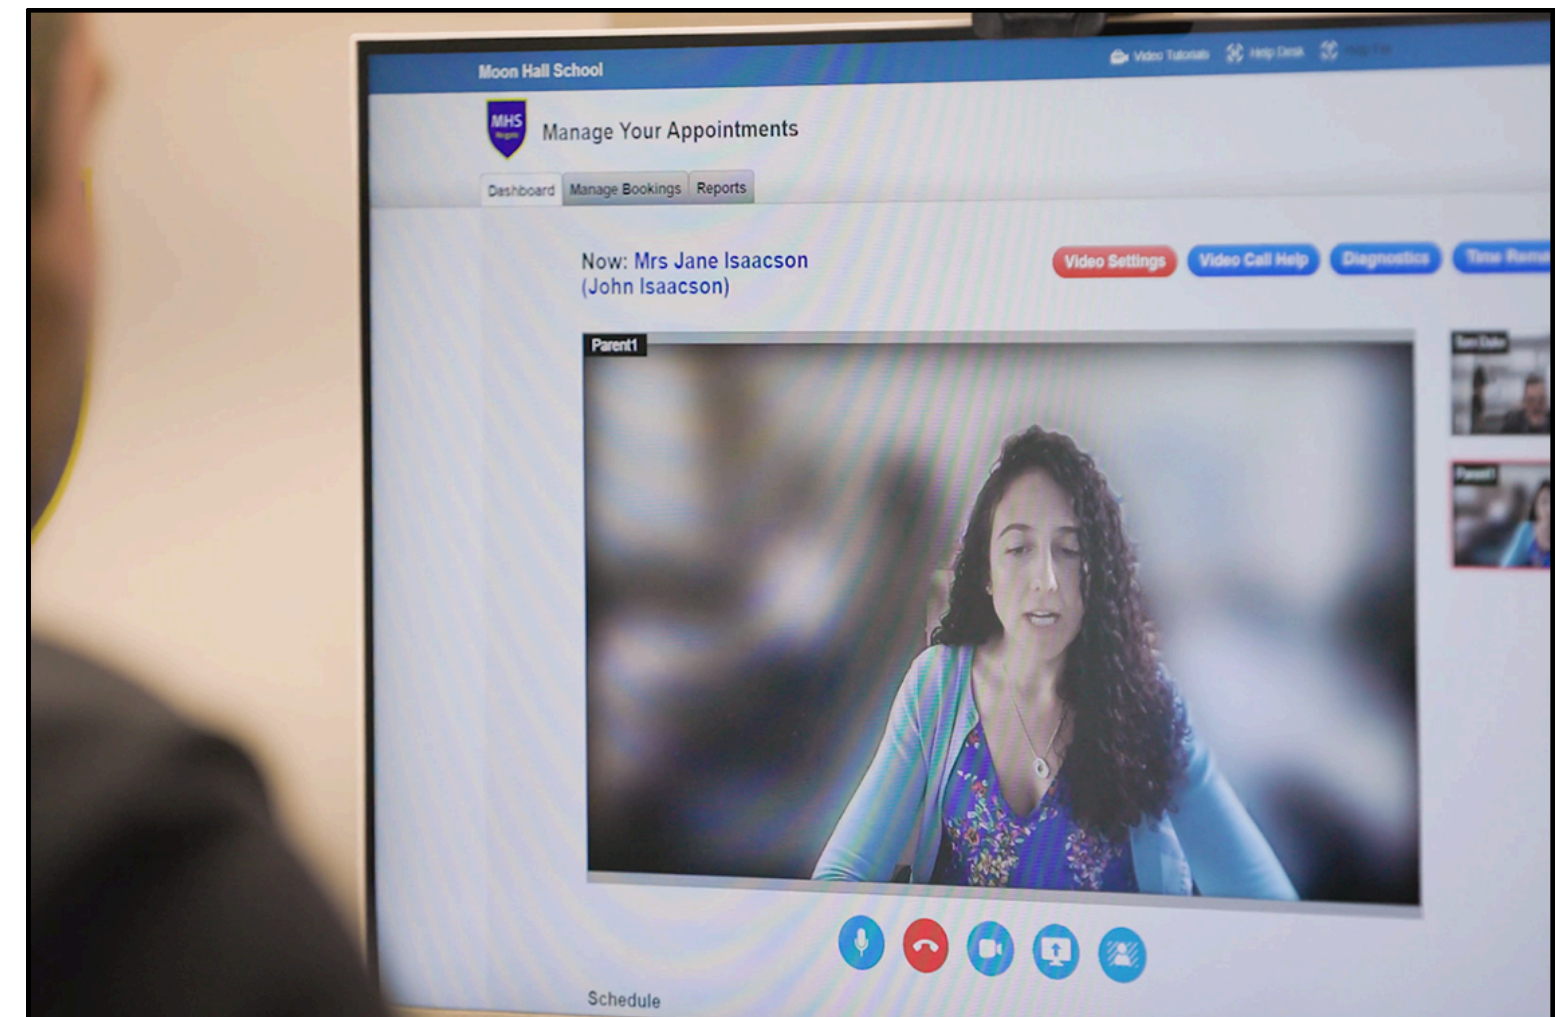

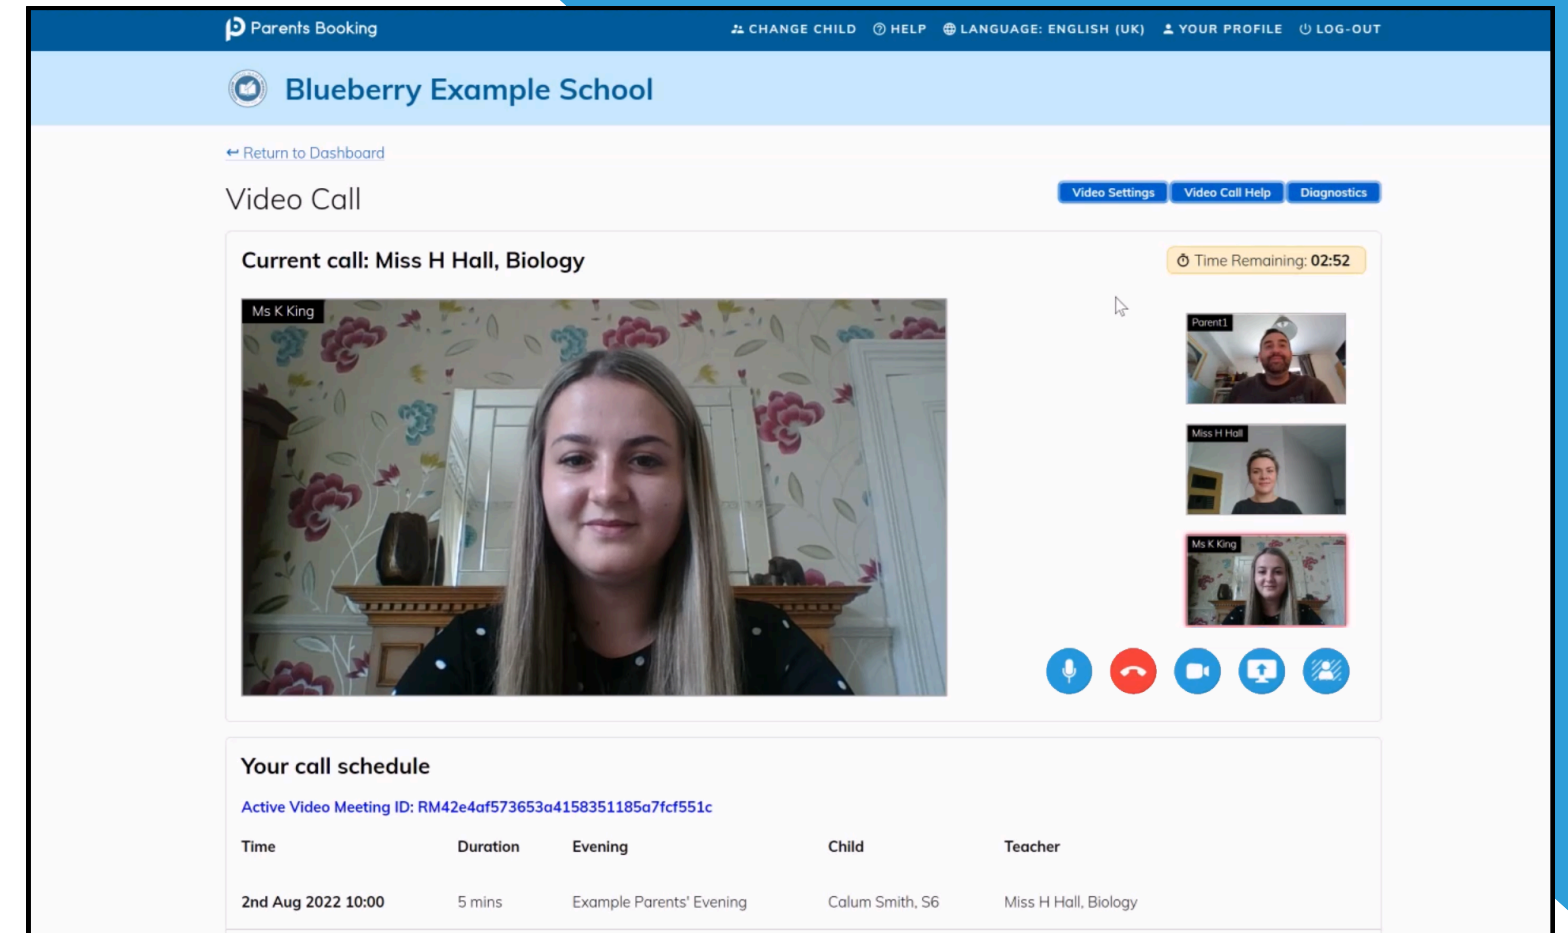

- Sync with your school's timetable/database/SIS in seconds
- Invite parents/guardians to select appointments that suit them
- Encourage a greater participation from parents/guardians
- Set up parent-teacher conferences, tutor evenings, targeting, invite-only, 1-to-1 and all other meeting types
- Novel features such as:
 - Scheduling wizard for parents
 - Set up shared classes in any of many different ways
 - District-wide access and Dashboards
- Save time, usually 100+ staff hours
- Save money on paper and printing

Video meetings

Parents Booking can turn appointments into timed video meetings automatically, meaning parent conferences can be conducted online fully or as part of a hybrid approach.

Video meetings run exactly to schedule and provide much greater accessibility for parents, meaning they attract higher attendances.

- Turn all appointments into video meetings in one click
- Up to six participants can join meetings from any location; great for parents and teachers who will be located separately, but also giving access to students and interpreters
- Create a 'hyrbid' of in-person and video meetings easily
- Share all meetings with one 'join link'
- Screen share, blur your background and join on any device

Events and Clubs

Organise your school's event and clubs online through one central portal.

Ideal for student performances, meetings, talks, sports clubs, society sign-ups and trips, simply ask parents to login and book theirs or their children's places online.

Parents and students can be restricted to a certain number of tickets or places, and payments can be taken through your school's preferred payment provider, including PayPal and Stripe.

We'll soon add facility for parents to pick their own seats. In the meantime you can assign staff to oversee events or clubs you create, to take attendances or send reminders.

Total: **£4.00**

[Print booking](#) [Email booking](#) [Update booking](#)

Complex booking tasks, like breakfast clubs, stay and play or after-school clubs, which will have a different attendance each day, are easily booked online by parents/carers through the Wraparound features.

Parents can pay through the school's preferred payment provider, while vouchers can be used to secure places where allowed.

Plug and Play

Parents Booking integrates with the technology your school is already using, to make it as plug and play as possible.

For example: parents can login using Google, teachers can login using Google and Microsoft, parents can pay using Stripe or PayPal and schools can sync their data direct from their MIS or by using Wonde.

Communications (SMS/email/push) and single sign-on integrations with multiple EdTechs are available as well, while new integrations are being continually added.
